AUTO GLASS AND WINDSHIELD REPAIRS & REPLACEMENTS

- ▶ rock chip repairs ▶ pick up and delivery ▶ mobile service
- ▶ no appointments necessary ▶ auto glass while you wait
- ▶ ICBC and Private Insurance claims
- ▶ 24-hour emergency service

How long does a windshield replacement take?

For most windshield replacements, your vehicle is required for 3-4 hours to allow for safe curing of the windshield adhesive. Simply come in and see us, we will look after your glass claim for you. All of our BC Stores offer ICBC Glass Express service.

Urethane and certain multi-component windshield adhesives are the only adhesive technologies used in high-performance glass bonding. This is because they are capable of withstanding high levels of deformation with little loss in adhesive performance. They are tough, abrasion-resistant, and durable to withstand 20 or more years of service

All-West Glass uses only OEM approved adhesives.

All-West Glass guarantees your installation to be free from defects in workmanship and material for a period of 90 days.

The sealing of any glass is guaranteed for the duration of ownership with the exception of leaking due to body deterioration.
